

Pharmacy Paging System

Clear Communication Creates Superior Service

Give pharmacy customers the best service possible with our SmartCall paging system. You can quickly and confidentially send text messages that clearly indicate when a prescription is ready or if customers are needed for further consultation. No long lines or noisy overhead systems to worry about. Because messages are fully spelled out on the pager's large LCD screen, communications is more efficient.

SmartCall helps you increase sales. Convenient pagers free waiting customers to shop in other parts of the store. You can easily stream sales or promotional messages directly to the customer and boost profits. Plus, you'll protect your customers' privacy, communicate more effectively and deliver superior service.

SmartCall improves communication with pharmacy customers and increases speed of service, resulting in superior service and higher sales.

SmartCall Highlights

- > **Clear Text Messaging**
Enhances communication with customers and increases speed of service.
- > **Anti-Theft Feature**
Minimizes accidental pager loss with an out-of-range alert.
- > **HIPPA-Friendly Communications**
Protects customer privacy with silent, confidential paging.
- > **User-Replaceable Rechargeable Batteries**
Battery replacement is easy and convenient, keeping the cost of ownership down.
- > **Dynamic Updates**
Informs customers of changes to their wait status for faster, more efficient service.
- > **Smart Charging**
Dramatically extends the life of pager batteries without overcharging them.
- > **Advertising Bulletins**
Deliver promotional messages on sales or specials directly to waiting customers.
