

Push Button Paging

Restaurant Paging System

Improve Service & Customer Experience

Push Button Paging System empowers your guests to manage their restaurant experience. After seating, the server shows the customer how to control their experience by pushing the appropriate button on the transmitter to:

- > Call the server to the table
- > Ask for the check
- > Request a manager to visit the table

Benefits include:

- > Increases check average
- > Improves customer experience
- > Increases table turns
- > Gives servers or managers the opportunity to respond to customer concerns, turning a potentially bad experience into a good experience

Guests feel confident that their needs will be met with Push Button Paging. You will be confident that you are providing excellent customer service resulting in quicker table turns and happy customers, both leading to increased sales.

Push Button Paging Highlights

- **Silent Discrete Communication**
Pagers are alerted by a discrete strong vibration and display the calling button
- **Long Life**
Call buttons operate for up to two weeks between charges
- **Rechargeable + Smart Charging**
Call Buttons are rechargeable and SmartCharge prolongs battery life by only charging batteries when needed, batteries last over three years
- **Smart Charging**
Up to 15 call buttons can be charged on one charge base. Rechargeable batteries reduce running costs
- **Simple Operation**
Customers simply press the service button
- **Fast Charge**
Call buttons will alert when charging is needed. Full charge time is only 2 hours
